

Vebit - The Pinduoduo of the Web3 World

Hong Kong Wanlian Financial Holdings makes strategic investment in a Singapore-compliant exchange.

Micro Trade, Mega Vision

 <https://www.vebit.io>

From "Micro" to "Bit" that Changes the World

"Micro" + "Bit"

Vebit derives from the fusion of micro and bit, symbolizing the facilitation of global value circulation through small-scale transactions.
In a world where traditional finance remains highly inaccessible, Vebit is reshaping trust through inclusive technology.

"Small investments, link global wealth."

Pinduoduo in the Web3 World Financial Revolution for All

Vebit is more than just an exchange

It is even more a Financial Inclusion Movement in the Web3 World

We are making digital assets no longer just a game for a few and the opportunity for every ordinary user

* No rejection of the smallest details: serving every users minor assets

* Gathering into the Sea: Small Transactions Make a Big Difference

Technology for the People: Making Technology Fairer

Platform token mechanism

VBT—The Heart of Vebit Ecosystem

Content: Name: Vebit Token (VBT)

Total: 1,000,000,000

Functions: 1.

transaction charge deduction

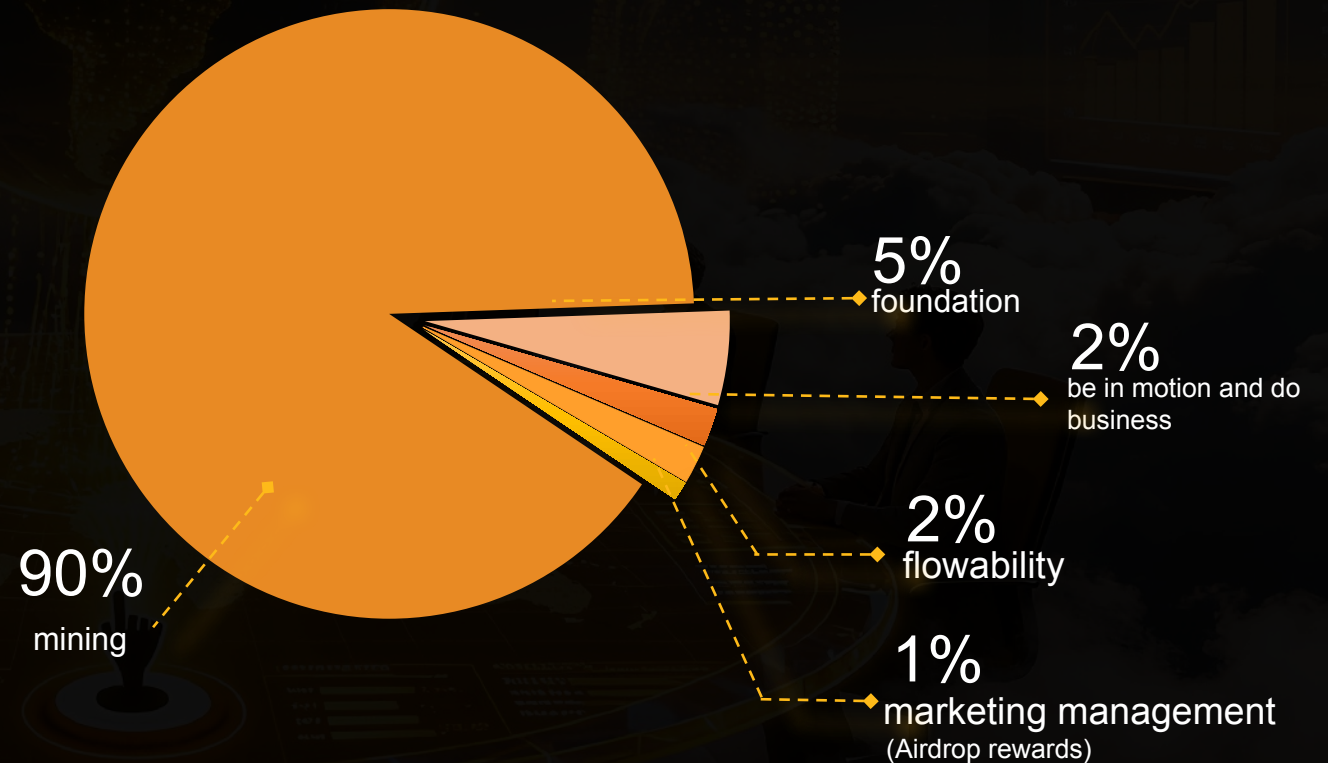

2.Node Voting and Governance

3.Mining reward

4.LaunchPad coin minting rights

5.Premium membership verification

allocation mechanism

VBT mining mode

Rewards and transaction volume, fees
bonded holding level

Introduce "computing power level
system" to enhance active incentives

Periodic VBT Destruction Model of
Deflation

User transaction
You can get VBT rewards

VBT mining mode

Trading is mining, everyone is a miner

Long-term lock-in reward
extraneous earnings

Economic Model and Deflation Mechanism

- On-chain circulation of gnt, stable coins
- DAO to be a global market
- Steady circulation of stable coins
- On-chain circulation of stable coins
- Periodic destruction of stable coins
- Periodic destruction of stable coins

Eco-partners: OTM Chain

Building Web3 Decentralized
Trading Ecosystem

Vebit × OTM Chain Strategic Partnership

Building on OTM Chain—the world's first industrial-grade RWA public chain—Vebit will co-create a high-performance, compliant, and secure decentralized trading ecosystem.

- Supports VBT asset issuance and cross-chain circulation
- Access to OTM high-speed backbone network and compliance standards (KYC/AML)
- Integrate DEX, NFT, GameFi, and RWA into application scenarios
- Build a Value Bridge between Stable Coin and Real Assets

objective :

Position Vebit as the core value hub bridging decentralized transactions and the real financial ecosystem.

Community and user growth

Introduction

- On-chain distribution of grant, token bonus
- Early blockchain project
- Stay/Go to meet the blockchain
- Blockchain solution solution
- Better solution to the blockchain
- Better solution to the blockchain
- Better solution to the blockchain
- Better solution to the blockchain

Team introduction

- Chaotic combination of traditional finance
- Data driven investment
- Strong understanding of blockchain
- Global and strong portfolio
- Strong network

Community collaboration contributed by The Golden Combination of Traditional Finance and Blockchain

**Founder: Wall Street investment bank / crypto exchange /
Silicon Valley tech company**

**Technical Lead: Former Binance Architecture Team
Member**

**Compliance Consultant: MAS Certified Attorney in
Singapore**

Investor: Hong Kong Wanlian Financial Holdings

Vision and Mission

Make Microtransaction the Wealth Code of the Times

We believe that wealth should not be controlled by the centralization, and everyone should participate in the distribution of value.

The gathering of small investors will reshape the global financial landscape

Vision: Making Financial Inclusion the Main Theme of Web3

Vebit

Microtransactions·Big future

Thank you for your attention and support
